

What Do You Know?

Adrian Belew

What do you know about love
only that you live without it
it chewed you up and spit you out

What do you know about life
maybe you read a few books
and maybe you'd skip through a chapter or two
cause you haven't got a clue

What do you know about anything
you always talk a big game
but in the end you'll only complain
cause that's all you know about

Love is the greatest happiness
and it's something you missed
