

Automatic

Adrian Marcel

I can't wait to get you off your feet and this bed
I know you working hard
Let me take your shoes off, get that body for your head
It's time to get it started, yeah yeah yeah

Breakfast in bed or something
Spreading your legs or something
Give you some head or something
Oh no, no, no
I done prepared you something
Just lie right there
I know you don't ask for nothing
I wanna show you the things you mean to me

Let me take care of you
'Cause baby this is your day
I'm gonna work for my girl
'Cause I know you'd do the same
You ain't gonna trip, it's automatic
You ain't gonna trip, it's automatic
These things I do from my heart
Ain't nothing tear us apart
Ain't gotta spend hella bands
Just put your trust in my hands
You ain't gonna trip, it's automatic
You ain't gonna trip, it's automatic

Run your shower, cook your meal
And be ready in an hour
Turn off your phone, tell your friends
You ain't social tonight
We gon' make a movie starring both us tonight

Breakfast in bed or something
Spreading your legs or something
Give you some head or something
Oh no, no, no
I done prepared you something
Just lie right there
I know you don't ask for nothing
I wanna show you the things you mean to me

Let me take care of you
'Cause baby this is your day
I'm gonna work for my girl
'Cause I know you'd do the same
You ain't gonna trip, it's automatic
You ain't gonna trip, it's automatic
These things I do from my heart
Ain't nothing tear us apart
Ain't gotta spend hella bands
Just put your trust in my hands
You ain't gonna trip, it's automatic
You ain't gonna trip, it's automatic

I know you like to flex but you know I'm the best
You always come around, boomerang effect

All you gotta do is love me and be loyal
Promise I'ma treat you better than the rest
Ooh, hit it from the back till my back ache
Kiss me right there right there lick it that way
I ain't got time for no niggas
But with you I don't know how to act babe
Lotta niggas talking statics
But with you you know it's automatic
It's sorta like when I be rolling up
The way you kinda turn it to a habit
You cater to me then we leave together
'Cause we both know we can't stay forever
But when I need and I'm feening
You're my umbrella for the stormy weather

Let me take care of you
'Cause baby this is your day
I'm gonna work for my girl
'Cause I know you'd do the same
You ain't gonna trip, it's automatic
You ain't gonna trip, it's automatic
These things I do from my heart
Ain't nothing tear us apart
Ain't gotta spend hella bands
Just put your trust in my hands
You ain't gonna trip, it's automatic
You ain't gonna trip, it's automatic
