

I've been riding in my chevy truck  
I'mma slide on you and see what's up  
You get mad 'cause I don't call enough  
A broke nigga got the time to spend  
And I ain't here  
I've been doing way too much  
I've been smoking way too much  
When I hit you, you know what's up  
When I hit you, you know what's up

All this money on me  
All these women on me  
This lifestyle can be so addictive sometimes  
Fucked around and go  
Got that platinum on my mind  
But I'm still thinking of you  
Been around this globe  
Girl, I'm still dreaming of you  
You capture my soul  
Girl, I hope that you stay down  
You ain't one of these hoes  
You the one that I know  
You the one for this song

I've been riding in my chevy truck  
I'mma slide on you and see what's up  
You get mad 'cause I don't call enough  
A broke nigga got the time to spend  
And I ain't here  
I've been doing way too much  
I've been smoking way too much  
When I hit you, you know what's up  
When I hit you, you know what's up

Don't give that pussy to a lame nigga  
'Cause they ain't gonna do you like I do you, babe  
If you ever let me, you gon' boomerang  
I know your emotions like an elevator  
They go up and down, go up and down  
When you up and down on me  
Riding all on me, telling me that you'll never leave  
Feeling all on your inside, you're only nasty for me, girl  
I love it, I appreciate you

I've been riding in my chevy truck  
I'mma slide on you and see what's up  
You get mad 'cause I don't call enough  
A broke nigga got the time to spend  
And I ain't here  
I've been doing way too much  
I've been smoking way too much  
When I hit you, you know what's up  
When I hit you, you know what's up

I've been riding in my chevy truck  
I'mma slide on you and see what's up  
You get mad 'cause I don't call enough

A broke nigga got the time to spend  
And I ain't here  
I've been doing way too much  
I've been smoking way too much  
When I hit you, you know what's up  
When I hit you, you know what's up
