

He don't know how to treat ya
Acting like he don't need ya
Come here girl, in my world
An appetite I could feed ya
Ooh yeah sexy babe
Lights on, I wanna see ya
You're so beautiful
Looking like the Mona Lisa

Say you getting lonely
I could change all that
Hit the spots that you want me
I could do all night
Know you've been waiting
The love elevation

Let me be your moment for love
It's alright, girl tonight
This could be your moment for love
You and I, girl tonight, yeah
Girl I wanna know
Iz u with it, iz u with it, iz u with it
Iz u with it babe
I just wanna know
If you with it, if you with it
You can get it babe, whoa

Wanna reach your treasure
Fill you up with pleasure
Body chills, [?] thrills
No one else can measure
Girl it's all on you
We can do whatever
Fly up to the moon
Long as we land together

Say you getting lonely
I could change all that
Hit the spots that you want me
I could do all night
Know you've been waiting
The love elevation

Let me be your moment for love
It's alright, girl tonight
This could be your moment for love
You and I, girl tonight, yeah
Girl I wanna know
Iz u with it, iz u with it, iz u with it
Iz u with it babe
I just wanna know
If you with it, if you with it
You can get it babe, whoa

Baby we ain't got a lot of time, I'm saying
Tell me what you want, I'll take my time, just say when
Know you never been through this before

There's a lotta things I wanna show you

Let me be your moment for love

It's alright, girl tonight

This could be your moment for love

You and I, girl tonight, yeah

Girl I wanna know

Iz u with it, iz u with it, iz u with it

Iz u with it babe

I just wanna know

If you with it, if you with it

You can get it babe, whoa
