

[?] spoken word, think I got a Luvjones

Livin' wrong for way too long, now I know where I belong
No, this ain't no fairy tale
This as good as it gets, you're as good as it gets
So I never saw this comin'

'Cause where I'm from they don't teach you to love, no
Let's take a chance, girl, we should let it all go
It's not our fault we never knew the meaning
But when cycles break, that's when you see the pain
Thank God we made our escape

Just another love story from the block
But we don't know what we doin'
But I'ma keep you by my side
'Cause with you I'm never losin'

Just another love story from the block
Love story from the block, yeah
Just another love story from the block
Love story from the block, yeah

I know they don't talk about this type of shit no more
This the generation now, always lookin' for more
You ain't got hella hoes—you ain't that cool
If you ain't flashin' hella dough—you ain't that dude

'Cause where I'm from they don't teach you to love, no
Let's take a chance, girl, we should let it all go
It's not our fault we never knew the meaning
But when cycles break, that's when you see the pain
Thank God we made our escape

Just another love story from the block
But we don't know what we doin'
But I'ma keep you by my side
'Cause with you I'm never losin'

Just another love story from the block
Love story from the block, yeah
Just another love story from the block
Love story from the block, yeah
