

Pieces

Adrian Marcel

I just gotta get it out my system
See its been weighing heavy on my mind too long (too long)
Looking at you girl was like looking in the mirror
But somehow you done turned into this motherfucka I don't know
Girl I can't stop these tears from flowing, flowing, flowing
Got me standing here broken hearted, hearted, hearted
You only need me when I'm noticed, noticed, noticed
Baby you were different when we started
Can't believe the things that I see now

Our love has ended
How could you turn away?
So willing
Never things that I thought you'd never do, baby
But you did it
Now I'm heartless standing all alone
Tryna mend it

Tell me how I'm suppose to pick up the pieces, pieces, pieces?
How I'm suppose to pick up the pieces, pieces, pieces, pieces?
How I'm suppose to pick up the pieces, pieces, pieces, pieces?
How I'm suppose to pick up the pieces, pieces, pieces, pieces?
How I'm suppose to pick up the pieces?

Baby did you get it out your system?
Grass ain't greener now you wanna come back (grass ain't greener now
you wanna come back)
Wasn't tripping when I called your phone baby, you were doing whateve
r (doing whatever girl)
I got too caught up in them lines and I ain't got no time for that
Cause the danger was with him, with him, with him
Had yo ass all on surveillance, 'veillance, 'veillance
I'm the wrong one to play with, play with, play with
Knew it girl before you started, started, started

Our love (our love) has ended (has ended, baby)
How could you turn away? (how could you turn away from me?)
So willing (so willing)
The things I thought you'd never do, baby (hey)
But you did it (you did it to me, baby)
Now I'm heartless standing all alone
Tryna mend it

Tell me how I'm suppose to pick up the pieces, pieces, pieces?
How I'm suppose to pick up the pieces, pieces, pieces, pieces?
How I'm suppose to pick up the pieces, pieces, pieces, pieces?
How I'm suppose to pick up the pieces, pieces, pieces, pieces?
How I'm suppose to pick up the pieces?
