

Slow Burn

Adrian Marcel

Inhale by body
Now I'm in your body
I hope you keep a secret
Girl don't tell nobody
Oh, can you feel it
Oh, girl the limit ain't the sky

I'm on a mission
To file all division
Just watch me reassure
I'm all you been missin'
There'll be times in your life
When it ain't always right
Right now come with me lil baby
We can fly

No stress girl it's alright
We can take our time
Let's go relax, you're mine
Let's just slow burn
La-dee-da, la-dee-da
Slow burn (ay)
La-dee-da (slow burn)

I could tell that they never
Had love together
They ain't never did it good
When they made your world stop
No fear, why you think you came here
To show you, everything that ain't it
I'm lovin' us together
I'll make you feel like it's forever

I'm all on your body
You give me chills down my body
Can you keep a secret
Baby girl don't tell nobody
(Don't tell 'em)

There'll be times in your life
When it ain't always right
Right now come with me lil baby
We can fly

No stress girl it's alright
We can take our time
Let's go relax, you're mine
Let's just slow burn
La-dee-da, la-dee-da
Slow burn (ay)
La-dee-da (slow burn)

No stress girl it's alright
We can take our time
Let's go relax, you're mine
Let's just slow burn
La-dee-da, la-dee-da

Slow burn
La-dee-da (slow burn)
