

# WAIT

Adrian Marcel

Girl the way you set up ooh it's something major  
You ain't looking for nobody that can save ya  
You got plans and you're sticking to the paper  
Hold it down, that's the only way to stay up  
'Cause you and me, that's a win  
We should get away from it all and take a trip  
Low key still the center of attention  
I understand why you keep 'em at a distance

You're from the Bay but you stay in LA  
You worked hard just to have it your way  
You just wanna be somebody  
Everybody needs somebody

Don't make me wait, wait too long, I want it all  
You got everything I like and you're just what I need  
Don't make me wait, wait too long, I want it all  
You got everything I like and you're just what I need

I'm just saying we're the same  
I don't wanna complicate  
I just want to put some energy in your life  
You can put your trust in me for the night  
'Cause you and me, that's a win  
We should get away from it all and take a trip  
Low-key still the center of attention  
I understand why you keep 'em at a distance

You're from the Bay but you stay in LA  
You worked hard just to have it your way  
You just wanna be somebody  
Everybody needs somebody

Don't make me wait, wait too long, I want it all  
You got everything I like and you're just what I need  
Don't make me wait, wait too long, I want it all  
You got everything I like and you're just what I need  
Don't make me wait, wait too long, I want it all
