

## You Know (I Do)

Adrian Marcel

I had a dream that I was waking up in paradise  
Then you text me [?] and said  
That what we did was everything and more  
Last night, sometimes I'm paranoid because

You don't say what you feel  
You got my [?] turning now  
When I touch you ain't there  
Do you like it girl  
I wanna please you every day I swear  
Run my fingers through you hair, just...

Touch me, feel me baby  
Won't you tell me everything, yeah  
Don't wanna be [?]  
Everything I do, I do it just for you  
Do it just for you

You know, you know, I do (you know it's true)  
You know, you know, I do (I just don't know where to stay)  
You know, you know, I do (you know I do)  
You know, you know, I do (ooh-oh)
