

Your World

Adrian Marcel

Sit back and unwind
Take your time tonight
Searching you will find
Your composure
Is so sweet to me
Ooh, closer
You're all I need, oh

Baby it's whatever, it's your world
You can do whatever long as we're together
Baby it's whatever, it's your world
Baby it's whatever, it's your world

Love you gently, that is all I'm supposed to do
Love you gently, oh
Just relax
Take a deep
Just relax

Baby it's whatever, it's your world
You can do whatever long as we're together
Baby it's whatever, it's your world
It's your world
Baby it's whatever, it's your world
You can do whatever long as we're together
Baby it's whatever, it's your world

We can take our time, just relax
And get high as fuck, imagine that

Baby it's whatever, it's your world
You can do whatever long as we're together
Baby it's whatever, it's your world
It's your world
We can take our time, just relax
It's your world
And get high as fuck, imagine that
It's your world
We can take our time, just relax
It's your world
Imagine that
