

## Candleflame

Adrianne Lenker

Every night I close my eyes  
Another day away  
You know I love you, I can't explain  
Crying over the candle flame

I feel God here and there  
People tell me it's everywhere  
You know I know you can't explain  
Crying over the candle flame

How 'bout that moon looking back  
Saying, "Glad you're here"  
When we're together only one thing moves  
Everything else stays the same

I see you pray, I want to too  
I one, two, one, two, four  
Four, two, five, six bedrooms  
So everyone can close a door
