

# Dig Down

Adrianne Lenker

Come on  
Put your mind in motion  
Dip into my well, dive to my depths  
Feel what I'm feeling, yeah  
Getting down below me  
Dare to mine the subterranean me  
See what you'll find there  
Underneath the black earth you will touch unique history

Dig down to my heart  
If you want to know me where I start  
And if you want to feel what's in my blood  
Dig yourself down, dig yourself down  
Dig down

Now it's not easy  
To see what's past my surface  
Look into my eyes and be surprised  
See what I'm seeing, yeah  
Getting down to business  
Amaze me with your mind, think hard this time  
And go for the gold

Dig down to my heart  
If you want to know me where I start  
And if you want to feel what's in my blood  
Dig yourself down, dig yourself down  
Dig down to my heart  
If you want to really play the part  
And if you want to get what I'm about  
Dig yourself down, dig yourself down  
Dig down

I've been this way on my own before  
I've dug a deep well to uncover my source  
I've tasted my truth and have been satisfied  
I'm keeping it real and I won't live a lie

Dig down to my heart  
If you want to know me where I start  
And if you want to feel what's in my blood  
Dig yourself down, dig yourself down  
Dig down to my heart  
If you want to really play the part  
And if you want to get what I'm about  
Dig yourself down, dig yourself down  
Dig down

Dig down, dig down, dig down
