

Symbol

Adrianne Lenker

Fly make flea, make haste, make waste, eight makes infinity
Times I've tried to make breaks, embrace for the enemy
Meet my face to face, time try to find the diamond
Counting time as time counts me, the river to the island

Do you not, do you not tell?
That smile always makes me well
Do you see circling through?
That's how one returns from two

Fly make flea, make haste, make taste, eight makes infinity
Times I've tried to make breaks, embrace for the enemy
Meet my face to face, time try to find the diamond
Counting time as time counts me, the river to the island

Do you not, do you not tell?
That smile always makes me well
Do you see circling through?
That's how one returns from two

The symbol of your love is time
The symbol of your love is time

Do you not, do you not tell?
That smile always makes me well
Do you see circling through?
That's how one returns from two
Do you not, do you not tell?
That smile always makes me well
Do you see circling through?
That's how one returns from two
