

# Don't Give Up On Us

Adrienne Bailon

Remember when we started  
you made it real easy  
always brought me flowers  
came to my job to see me  
Now i'm getting nothing  
Barely getting loving  
I just wanna get back to where  
You would tell me how much you need me  
Tell me that you love me  
That you miss me baby baby  
And your thinking of me  
Only, it feels like somewhere in between  
Then and Now something have changed  
Why you'd start up things again  
You wouldn't do late in the game  
But I want to get that back  
Is that to much to ask for  
Baby it's just me  
Slowly but Surely it seems  
Like your just giving up on us  
(don't give up on us)  
Don't give up on us  
(don't give up on us)  
Don't give up on us us us
