

Scare Up the Birds

ADULT.

Shoulder blade stitched
Itch, itch, itch
Sinking in quick, so soon -so sick
A whole new twist, breakin' your wrists
It all seems to come back to this
Nape of your neck
Next next next
Gonna drag it away, if you stay
Keeps getting better, since no one's left
It all seems to come down to this

Watch out, watch out,
'Cause we're gonna take yours, gonna take yours
Gonna scare up the birds, like a house on fire

Shouldn't believe, things you read
Tell you what, what you don't need
Gonna make you twitch
Itch, itch, itch
It all seems to come back to this
Makeshift guest, took the rest
Here's some courtesy, to please those needs
Better look out, or you'll be
Next, next next

Put the scream out
Out, out, out
It's coming my way, it's coming half way
/all the way/my way
