

Make Sense (Interlude)

Ady Suleiman

'Cause I know it's cold when you don't feel love, let's stay the same

Maybe we were young sometime, maybe we would settle

Maybe I never knew that I would ever fall in love with you

Maybe you should when you feel me, make sense

If you got it, better love me now, make sense

I just need your lovin', yeah, I need you to find

I just wanna find you, babe, so I can make it right

She got something for my life

Need you need you for my-

I know that I need you for my-

I know I know that I-

She's so [?]

Let me tell you I need you in my-

I know that I need you in my-

You got what I wanted, girl

You got what I wanted, girl

You've got what I need, my love

So hold on yeah I'm going down and-

Need you darling for my-

Oh oh oh

Need you darling for my-

Need you darling darling

Oh oh oh oh oh

Need you darling for my-

Oh oh oh oh oh

Need you
