

So Lost

Ady Suleiman

Where am I?
Who are you?
What am I doing here?
What's going on? Mother would you wipe away your tears?
Cause I'm lost, mixed emotions, confusion, fear
I need to find some bearings in this hemisphere

Well son, you've been gone for a long time
You weren't right up here in your own mind
Talking shit, living a wild lifestyle
That don't work in this system I'm afraid child

And I've been so lost in my mind
I can't find a way back into life
And I've been so lost in my mind

Now I'm back why do I feel like an alien
Don't know how to act up in social situations but
Don't worry doc's giving me medication
Pills in the morning, afternoon and evening but
But do they know that they don't really help no
All they all do is paralyze myself
I'm still lost with ah-nowhere to go
I must evolve or I'll become incapable
(I'll become incapable oh)

I've been so lost in my mind
I can't find a way back into life
And I've been so lost in my mind
And I've been lo-oh
And I've been well
And I've been yeah
So-oh lost
And I've been lo-oh
And I've been well
And I've been yeah
So-oh lost

{Bum-be-dum-be-dum-be-doop-ee-dum-yeah
Bum-be-dum-bum, bum-be-doo-be-dum-bum
Bum-be-dum-be-dum-be-doop-ee-dum-yeah
Bum-be-dum-bum, bum-be-doo-be-dum-bum
Be-dum-be-dum-be-dum}
Aye, aye
No no no no
I've been so lost
And I've been well so lost in my mind
I need to find a way back into life
Oh I've been no no, and I've been well
Ain't never been so lost in my mind

I've been lost, and I've been well
And I've been here so long
I've been lost, and I've been well
And I've been here so long
