

Keep Going

Aer

I'm gon' free your mind
Just one step at a time
Make you feel so right
Nothin' else lies like a Winter's long ride
I'm gon' free your mind
Just one step at a time
Make you feel so right
Nothin' else lies like a Winter's long ride (ride)

Autumn has got 'em, ahold of 'em
Nothin' heavier floatin' over my shoulder
Give me the gun and let me do it
Before you screw it up
Before you circle off somethin'
Elaborate the labor durin' summer sun an'
A fluid to flow through it
I think I'm beginnin' to fluent
Tattoo it, get next to it

The orange glow, from a bowl grows
In the light lights
'Cept the night [?] is so cold
West of the ozone, addressin' the sex tone
Text phones, sweat from my head to toes
I'm set but I gotta get back and up away from the cove
Feelin' ten out of ten, and my letter's bold
I'm set but I gotta get back and up away from the cove
Feelin' ten out of ten, and my letter's bold

I'm gon' free your mind
Just one step at a time
Make you feel so right
Nothin' else lies like a Winter's long ride
I'm gon' free your mind
Just one step at a time
Make you feel so right
Nothin' else lies like a Winter's long ride (ride)

I'm gon' free your mind (free your mind)
Just one, just one
Make you feel so right, so right (so right)
I'm gon' free your mind
Just one, just one
Make you feel so right, so right

Free your mind
Decide what I want
Free your mind
Decide what I want
Free your mind
Decide what I want
