

# Somebody

Aerosmith

I need a lady, not somebody shady  
need someone to be close to  
somebody cozy, not somebody nosy  
help me see my whole day through  
someone to share the load  
somebody to walk the road I live on... live!  
good Lord send me, good Lord mend me  
send me down someone for me  
said I won't be choosy, you could send me a floozy  
send me anybody you please  
somebody say you will  
somebody further still  
somebody, some-somebody for me  
now won't you send me somebody  
yeah, somebody  
won't you send me somebody  
now won't you send me somebody  
well, call for somebody, scream loud and bloody  
call woman, woman, come on to me  
save for tomorrow, share all your sorrow  
misery enjoys company (yes it does, yes it does)
