

## Three Mile Smile

Aerosmith

Oh...

Take a walk in the warm New England sun  
Ain't no time to look for clues  
You get the point from Uncle Sam's loaded gun  
Who be the hand that light the fuse

A take a look, take a look at my old billy goat  
He used to raise all kinds of hell  
He took a dose of radiation dope  
A back in the barn is where he felt, like hell

Aar...Lucy, chromosome  
Lucy, superdome

What makes you think you patronizin' my old friends  
After you ride in my car, car  
What do you do when your oil's Mexican  
OPEC boys, you went too far, too far

Aar...Lucy, superdome  
Lucy, chromosome  
Aar...Lucy, papadum  
Lucy, sing the song

(Ah), dig it up  
(Ah), live it up  
(Ah), a dig it up  
(Ah), live it up

Look out!
