aespa

I see you eyein' from the back, all in black
Know you think that I'm a snack, I see that
I know your plan of attack, it's really whack
You followin' the wrong track, ya maniac

Me, you? (Nah, nah, nah, nah)
What you think we about to do? (La, la, la, la)
Ew, you (Blah, blah, blah, blah)
I'mma call security on ya, ya, ya, ya

Been a, been a menace to a boy like you
Keep giving me attitude, like a fresh tattoo
Sizzled energy, but, sensitive to H2
Oh, you never understood me the first time?

Too hot for you, too hot for you
I'm too hot for you
Too hot for you, too hot for you
I'm too hot for you
What you thinkin'
Why you aimin' up so high?
Ugh, turn around, walk (Bye)
What you thinkin'
Why you aimin' up so high?
Ugh, turn around, walk (Bye)

Stressy, stressy
'Cause you messy, messy
Get happy, get swaggy
That atti puts you in my league
Petty, sketchy
While I'm hella sexy
Honey, for the low vibe
I'mma kick ya to the street

Me, you? (Nah, nah, nah, nah)
What you think we about to do? (La, la, la, la)
Ew, you (Blah, blah, blah, blah)
I'mma call security on ya, ya, ya, ya

Look at you, look at me
Clearly, this can never be
I'm sorry, you thought differently
Now get that mess away from me

Too hot for you, too hot for you
I'm too hot for you
Too hot for you, too hot for you
I'm too hot for you
What you thinkin'
Why you aimin' up so high?
Ugh, turn around, walk (Bye)
What you thinkin'
Why you amin' up so high?
Ugh, yo, tell them in a new way

You thought you could approach me, aww (Hashtag, settle down)

You really thought you in my league, aww (Hashtag, settle down)
You thought you could approach me, aww (Hashtag, settle down)
You really thought you in my league, aww (Hashtag, settle down)
