

# Better Things

aespa

Oh, oh, oh  
Got better things to do with my time  
Better things to do with my time  
Do with my time than you  
Oh, I got better things to do with my time  
Better things to do with my time, do with my time

I wasn't ever sure that I loved you  
But I was always sure you would let me down  
I wasn't ever sure if I'd trust you  
But I'm so goddamn sure my energy is just too precious to waste

So now you, now you wanna know me, wanna know me  
You wanna know all about me, wanna know about me  
But he can't have me 'cause I left him alone  
You know you wanna know me, you wanna know me  
You wanna know all about me, wanna know about me  
But he can't have me 'cause I'm gone, no, no, no

That I, I got better things to do with my time  
Better things to do with my time  
Do with my time than you  
Oh, I got better things to do with my time  
Better things to do with my time, do with my time  
Break it down  
Oh I, better things to do with my time  
Better things to do with my time  
Do with my time than you (Yes)

Wasn't ever sure if I loved you  
But I was always sure you would have loved me back  
You had me right, right, right at my weakest, yeah  
Now you're hurting, I can see you're mad  
'Cause you're never gonna get that back

Now I know you wanna know me, wanna know me  
You wanna know all about me, wanna know about me  
But he can't have me 'cause I left him alone  
You know you wanna know me, you wanna know me  
You wanna know all about me, wanna know about me  
But he can't have me 'cause I'm gone, no, no, no

That I, I got better things to do with my time  
Better things to do with my time  
Do with my time than you  
Oh, I got better things to do with my time  
Better things to do with my time, do with my time  
Break it down
