Forever forever

With a resemblance
I remember the day you came to me
A day when
The white snow fell silently

I fell in love with you at first sight
And I knew it would last forever
That's how we recognized each other
And got closer

It's still a little unfamiliar
But I can see the future
Knowing me better than myself
Will become a habit of yours

Forever forever
I want to give you only pretty things
Forever forever
Give you my full heart
So that you can live
In happiness and love forever
I'll always stand by your side
Always just like now

Oh oh oh
Woo oh baby
My baby yeah
Yeah yeah

I know this journey can be
Hard and lonely at times
You can lean on my shoulder then
I want to be on your side

Forever forever
As clear as your soul
Forever forever
I'll protect it and keep it safe
Happily ever after
Until the beautiful sunset
I'll always walk by your side

Even if I'm offered everything in the world
I can't exchange it even for a single day with you
I want to face myself more with a happy heart
As I become more like you

Forever forever
I want to give you only pretty things
Forever forever
Give you my full heart
So that you can live
In happiness and love forever
I'll always stand by your side
Always just like now

Forever forever
