

Run

aespa

I just wanna run
I wanna feel the wind on my face
Wanna feel the ground as it breaks with every step
Whatever lies ahead

I'm gonna run
I can feel the fire in my feet
Here I go no one can stop me, yeah
I'm raising to tomorrow

Watch me run, run, run!
Watch me run, run, run

Nothing can slow me down
There is nothing stopping me now, oh yeah

Heart pounding like a drum
Head first can't wait to go on and on and on!
