

We Wake Up

Aesthetic Perfection

Sometimes we wake up
Once we've had enough
But other night's will come
When we're left alone

And i miss
[?]
And I'm screaming let me go
The sheets are soaked
Won't you wrap your arms around me

Why can't i wake up?
Why can't i wake up?
Why can't i wake up?

Now lay me down to sleep
With uncertainty
Of all the savagery
That the night will bring

When day breaks
Will i wake?
Oh the sun is going down

The lights are out
Are the monsters gonna get me

Why can't i wake up?
(wake up)

Why can't i wake up?
Why can't i wake up?
Why can't i wake up?
Why can't i wake up?

My sleep's just not enough
My nights are made of misery
My screams are loud enough
To wake, to wake, to wake you

Why can't i wake up?
Why can't i wake up?
Why can't i wake up?
Why can't i wake up?

Why can't i wake up?
