

# Wickedness

## Aesthetic Perfection

(I don't trust anyone, or anything, or anyone who does)

What if I'm not the enemy  
What if the blames on us both  
It's not black white red  
Run look what we've become

Do you believe in destiny?  
[?]  
No I won't lie ill die  
Craving the chaos

I want it  
I need it  
I love it  
I'm pleading  
I want it  
I need it  
I love it  
I'm pleading

I like the wickedness  
Inside your skin  
I like the wickedness  
It dwells so deep within

I like the wickedness  
Inside your skin  
I like the wickedness  
It dwells so deep within

They say the heart is just fair to take  
It's not like I loved you at all  
If they can't see the real me, then  
They can't cut me off

I don't want anything  
Not if I can't have it all  
So let's turn up, burn up

Make sure we dissolve

I want it  
I need it  
I love it  
I'm pleading  
I want it  
I need it  
I love it  
I'm pleading

I like the wickedness  
Inside your skin  
I like the wickedness  
It dwells so deep within

I like the wickedness

Inside your skin  
I like the wickedness  
It dwells so deep within

I'm not the one you've fallen for  
I got the the fire and the flaws  
Don't try and fight it, I'm all yours  
You fell in love with wickedness

You fell in love with wickedness  
You fell in love with wickedness  
You fell in love with wickedness  
You fell in love with wickedness

You fell in love with wickedness  
You fell in love with wickedness  
You fell in love with wickedness  
You fell in love with wickedness
