

## alone with you

Afgan

What's that worry for  
Everytime I walk out that door  
I told you baby  
I don't wanna leave  
In your arms is where I should be

I've been working hard and a break I could use  
Sometimes I wanna be alone  
But I prefer to be

Alone with you  
No one else will do, I know  
And when you're away, I can't replace you  
And everyday they test my patience  
Sometimes I wanna be alone  
But I prefer to be alone with you

Free times hard to come by  
And I have my share of long nights  
You deserve some love in your life  
I promise when I'm home I'll make it worth your while  
Ain't no stressin, let it roll off  
Bathtub, back rub when we cool off  
Great time, make time, its been too long  
We can do whatever you want

I wanna try to be available to you  
Cause you're the only one that's worth my time  
And when I'm gonna try to make it up to you  
Even though, I like to be alone sometimes  
I like to be alone with you
