

bad

Afgan

Uhh breaking hearts is my profession girl
It's easy for me
For me
I tried to tell you once before but you just ain't wanna leave
Leave

I just can't help it, baby
That you keep falling for me
You should just head for the door
You must be crazy, baby
If you don't stay away
Cause I'll never really be yours

Ahhh
Don't fall in love girl
You know I'm trouble for you
I got you like, ahhh
Cause it feels so good
But I'll end up hurting you
You know I'm bad

Girl you know it
Girl you know it
Girl you know
You know I'm bad

You keep getting closer I push you away
The more that I leave is the longer you stay
Going in circles and going insane
This loving addiction goes straight to your brain
