

don't forget about you

Afgan

I know
You give me all your free time
And I don't
Give you all of my mind
It's so wrong
We can't keep this up
You deserve better
You deserve better

Trippin'
You don't hold back nothing
When I'm distant
Give me all your space
When I be missin'
I'm dragging you down
You deserve better

You're way too good for me oh
I love you selfishly
If you wanna leave then go
But if you plan on hanging around

Don't forget about you
Don't forget about you
Don't forget about you
Don't forget about you
You've been givin me
All you time and energy
I know you're into me
Don't forget about you
Don't forget about you

Long drives
No make up on its midnight
You still ride
Just to pick me up
And Spend a lil time
But you deserve better

When you busy lovin me
When you busy lovin me
All the things that you might need
All the things that I can be
Don't forget about you
