

Escape

Afgan

I know you got your door halfway open
But tell me if you in or you out
'Cause we both know that time waits for no one
So why are we still hangin' around?

It feels so good when we're here with nobody
So let's not fight the mood
Don't fight it
I know I don't need anybody
As long as I'm here with you

Can we just escape?
Let's go somewhere far away
And spend the rest of our days, oh baby
Can we just escape?
We ain't got nowhere to be
Let's just get lost, you and me
Let's go, baby

I love the way you love me, love me
'Cause nobody can love me like you do
I love the way you love me, love me
Let's just get lost, you and me
Let's go, baby

I want your body
I just wanna love you in so many different ways
Don't fight the feeling
All we ever need is someone to believe in, baby

Can we just escape?
Let's go somewhere far away
And spend the rest of our days, oh baby
Can we just escape?
We ain't got nowhere to be
Let's just get lost, you and me
Let's go, baby

I love the way you love me, love me
'Cause nobody can love me like you do
I love the way you love me, love me
Let's just get lost, you and me
Let's go, baby

I love the way you love me, love me
'Cause nobody can love me like you do
I love the way you love me, love me
Let's just get lost, you and me
Let's go, baby
Let's go, baby
