

Keep It Hush

Afgan

Ain't nothin' to lose, just like I told ya
Play by my rules, not to follow the lies
It got me torn in two, can't hide it to ya
Gotta say what's true, simmer down for you

Ain't nothin' but a heartbreak, coz you make this go your way
Know how to keep it silent, confide only in your space
Don't mean to hide it, can't find any other way
Writing my story, but let's keep it lowkey

Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush

I ain't gonna make a scene, I'm about that honesty
Imma do what's right for me, setting up some boundaries
Keeping this at ease, gotta, be nobody else but me (hey)
I'm addicted to the mystery, ain't about some victory for me, f
or me
I'm fighting for my peace (yeah)

Ain't nothin' but a heartbreak, coz you make this go your way
Know how to keep it silent, confide only in your space
Don't mean to hide it, can't find any other way
Writing my story, but let's keep it lowkey

Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush...

Ain't nothin' but a heartbreak, coz you make this go your way
Know how to keep it silent, confide only in your space
Don't mean to hide it, can't find any other way
Writing my story, but let's keep it lowkey

Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush, you know we, you know we gotta keep it
Hush hush
