

Missing The Old Days

Afgan

I just miss the old days so much more
Going to the record store
CD on blast through the radio
Time wasn't so high speed
Fast train
Find myself passin' through all of the stations
I'm missin' the simple things I love
Back in the old days, oh I
Skippin' the beat, taking the time

I need a rendezvous from the merry-go-round
Somewhere cool where nobody's around
Somewhere blue where the water don't drown me, oh I
Missing the old days
Now I need patience, this life gets too wild
That virtue's been out of style
Somewhere new to get lost and be found, oh I
Missing the old days

Feels like a two year heatwave
I need a cold break
Ice tea, I need some milk, shake it up
In my white T's
North Face
Southpaw
Loose grip
Might need to fix that
Pray I don't trip

Now the drink in my cup is spilling
Runnin' a rat race
So fast paced
Skippin' the beat
Taking the time

I need a rendezvous from the merry-go-round
Somewhere cool where nobody's around
Somewhere blue where the water don't drown me, oh I
Missing the old days
Now I need patience, this life gets too wild
That virtue's been out of style
Somewhere new to get lost and be found, oh I
Missing the old days

I just miss the old days
Taking the time
Missing the things I love
Back in the old days, oh I
Taking the time
Missing the things I love
Missing the old days
