Beware

Afghan Whigs

The way people smile and say, Using me in every way It's okay

Times are changing
Life is upside down
No reason to cry now
Oh no reason to cry now

Beware of who you listen to Beware of what you believe Ain't nothing I can do to you To make you love me

Friends are the reason

For so many breakups and breakdowns, round town

So many people think that life is so much fun

We've only just begun

Begun to have some fun

Beware of who you listen to Beware of who you believe Ain't nothing I can do to you To make you love me

Beware of who you listen to Beware of what you believe Ain't nothing I can do to you To make you love me

To make you love me
