

## Gentlemen

## Afghan Whigs

Your attention please  
Now turn off the light  
Your infection please  
I haven't got all night

Understand  
Do you understand?  
Understand  
I'm a gentleman

I stayed in too long  
But she was the perfect fit  
And we dragged it out so long this time  
Started to make each other sick

But now I've got time for you  
For you, you, you and you and me too  
Well, come and get it, come and get it  
Cause I'm done

Understand  
Do you understand?  
Understand, I'm a gentleman  
I'm a gentleman

I waited for the joke  
It never did arrive  
And words I thought I'd smoke

Let me in I'm cold  
All messed up but nowhere to go  
You got indecision, and indecision is my enemy  
Well, unlock the cabinet, hey  
I'll take whatever you got, got, got  
Now I'm on it, now I'm on it  
And you're done

I waited for the joke  
It never did arrive  
And words I thought I'd choke  
I hardly recognize
