

## Light as a Feather

Afghan Whigs

Say you're coming for the rest of me  
Sounds good, I like what you're doing  
Let me demonstrate  
And though I've said it before  
I'm gonna be breaking your heart, baby

Now if your limits should convince the sky  
You sidle up proper, baby  
You will never die  
I know I've said it before  
I'm gonna be breaking your heart, baby

Cross the river to get next to me  
You're like the dawn  
You're either gonna let go  
Or come get some more  
Don't ever let go  
Come get some more

Our love from mouth to mouth  
My kingdom from the South  
So come collect your feelings

Light as a feather, child  
I got nothing to lose

O, no  
These consequences
