## When We Two Parted

**Afghan Whigs** 

Baby, I see you've made yourself all sick again Didn't I do a good job of pretending You're saying that the victim doesn't want it to end Good, I get to dress up and play the assassin again It's my favorite It's got personality

I should have seen this shit coming down the hall Every night I spent in that bed with you facing the wall If I could have only once heard you scream To feel you were alive Instead of watching you abandoning yourself

Baby, you can open your eyes now And please allow me to present you with a clue If I inflict the pain Then baby only I can comfort you, yeah

Out of the night we come And into the night we go If it starts to hurt you Then you have to say so

Out of the night we come And into the night we go If it starts to hurt you Then you have to say so

Out of the night we come And into the night we go If it starts to hurt you Then you have to say so
