

Break Angels

AFI

I'm the young father of every great fall
Don't let them catch you in my sight
Who's seen my father
Sees nothing at all
I saw my father he's blinding

Over time, pretty rhymes
Break angels. Break angels

Oh no holy night, no end of days
I fed the light, the light you ate
Not a holy night, no end of days
You are the light, I am the way

I'm the young father of every great fall
Don't let them catch you in my sights
Don't say my father took any cheap fall
In me, my father is still fighting

Over time, pretty rhymes
Break angels. Break angels

Oh no holy night, no end of days
I fed the light, the light you ate
Not a holy night, no end of days
You are the light, I am the way

Over time, pretty rhymes
Break angels. Break angels

Oh can you perfectly recite
So I may hear those pretty lines
Break angels

Oh no holy night, no end of days
I fed the light, the light you ate
Not a holy night, no end of days
You are the light, I am the way

Oh no holy night, no end of days
I fed the light, the light you ate
Not a holy night, no end of days
You are the light, I am the way
