

# Caught

AFI

Hold me for a moment without a word  
Of everything that we've done, of all I've heard  
Still your tongue with feeling or we'll be found  
Hold me for a second without a sound

In the lightest  
Rare requited kiss  
You a light and I, I abyss

Hold me for a moment without a word  
Of everything that we felt, until you've heard  
Every song that we have loved, played to death  
I will hold you for a lifetime, with my breath  
As we held silent

In the lightest  
Rare requited kiss  
You a light and I, I abyss

I can tell you  
I can tell you now  
Now that I have been caught

I can tell you  
I can tell you now  
Now that I have been caught

(In the lightest, rare requited...)

In the lightest  
Rare requited kiss  
You a light and I, I abyss

Hold my last kiss  
That I left with you  
You my light that I ever miss
