

Twisted Tongues

AFI

We watched the world
Turn itself backward
Now, in reverse
You spit out big words
Over a low sun
Undo the undone

You talk in twisted tongues
Of an absolving curse
You talk in twisted tongues
I whisper in reverse

You tore us out
We turned it inward
Upon my mouth
You spat your big words
Over a low sun
Undo the undone

You talk in twisted tongues
Of an absolving curse
You talk in twisted tongues
I whisper in reverse

You ask the moon and stars
Because there's no one else
You ask the moon and stars
I whisper to myself

You talk in twisted tongues
Of an absolving curse
You talk in twisted tongues
I whisper in reverse

You talk in twisted tongues
I whisper in reverse
