

# Back To Life

Afrojack

I come alive  
When you're lying next to me  
You pull me up  
When I can't get on my feet  
The sound of your voice  
And the rapture in your eyes  
Your love is the law  
And you bring me back to life  
Back to life

(Back to life)  
(Bring me back to life)  
(Back to life, back to life, back to)  
(Bring me back to life)

So when I can't speak  
And life is breaking  
When I feel too low  
Yeah you bring me back  
I'm exploding  
Out of my body  
Cos I've let go  
Yeah you bring me back to life

Bring me back to life  
Bring me back to life  
(La la la la, la la la la, la la la la)  
Bring me back to life  
(La la la la, la la la la, la la la la)  
Bring me back to life

You are my air  
When I'm struggling to breathe  
You answered the prayer  
When my faith escaped belief  
The sound of your voice  
And the rapture in your eyes  
Your love is the law  
And you bring me back to life  
Back to life

(Back to life)  
(Bring me back to life)  
(Back to life, back to life, back to)  
(Bring me back to life)

So when I can't speak  
And life is breaking  
When I feel too low  
Yeah you bring me back  
I'm exploding  
Out of my body  
Cos I've let go  
Yeah you bring me back to life

Bring me back to life  
Bring me back to life

(La la la la, la la la la, la la la la) (Bring me back)  
(La la la la, la la la la, la la la la)  
Yeah you bring me back to life
