

Day N Night

Afrojack

Day and night
Day and night
Day and night
I need it day and night

Oh woah-woah

I want you like all the time
You're my ride or die
Yeah, you're my slime
I want you forever, boo
'Cause I really love you
You know that I do, uh

When I'm alone I can't sleep
I can't eat
If I can't have your body on me
You're everything that I need, baby
You're everything that I need
Oh woah-woah

I want you with me day and night
Your body day and night
I need it day and night
Oh woah-woah
I want you with me day and night
Your body day and night
I need it day and night
Oh woah-woah

I want you with me day and night
Your body day and night
I need it day and night
Oh woah-woah
I want you with me day and night
Your body day and night
I need it day and night

Nobody else can compare
Our love makes the whole world stop and stare
I need you and it's not fair
Do you really love me? Do you even care?

Uh

When I'm alone I can't sleep
I can't eat
If I can't have your body on me
You're everything that I need, baby
You're everything that I need
Oh woah-woah

I want you with me day and night
Your body day and night
I need it day and night
Oh woah-woah
I want you with me day and night

Your body day and night
I need it day and night
(Oh woah-woah)

Sun and stars
Sky and sea
Day and night
You and me

Sun and stars
Sky and sea
Day and night
You and me

You, me, so high
Day and night
It's what I like
Day and night
Since you're my side
Day and night
Is it all right?
I want you with me day and night
Oh woah-woah

I want you with me day and night
Your body day and night
I need it day and night
Oh woah-woah
I want you with me day and night
Your body day and night
I need it day and night
Oh woah-woah

I want you with me day and night
Your body day and night
I need it day and night
Oh woah-woah
I want you with me day and night
Your body day and night
I need it day and night
