

Everything You Do

Afrojack

Everything you do makes me feel
Everything you do makes me alive

Everything you do makes me feel
Everything you do makes me alive

Everything you do makes me feel
Everything you do makes me alive

Everything you do makes me feel
Alive
Alive

Back in your place
Turn up the bass

Back in your place
Turn up the bass

Back in your place
Turn up the bass

Feelings taking over
Bodies moving closer
My head on your shoulder
Don't let this be over

Everything you do makes me feel
Everything you do makes me alive

Everything you do makes me feel
Everything you do makes me alive

Everything you do makes me feel
Everything you do makes me alive

Everything you do makes me feel
Everything you do
Everything you do (Back in your place)
Everything you do (Turn up the bass)
Everything you do (Back in your place)
Everything you do (Turn up the bass)

Back in your place
Turn up the bass
Back in your place
Turn up the bass

Back in your place
Turn up the bass
