

Feels Like Home

Afrojack

Some days life doesn't give you what you're after
Only Heaven knows
How to keep your head up in this beautiful disaster
I want you to know

I could be out of luck
I could be feeling stuck
One look at you and it feels like home
Your love is like a drug
No I can't get enough
When I'm with you it always feels like home

Like the sun and the stars
If we're light years apart
No I'm never gonna feel alone
Doesn't matter how far
Keep you close to my heart
No I'm never gonna feel alone

It feels like home
It feels like home
It feels like home

It feels like home

Summer nights, wanna make 'em last forever
Lonely rivers flow
Times with us when we're holding on together
I want you to know

I could be out of luck
I could be feeling stuck
When I'm with you it always feels like home

Like the sun and the stars
If we're light years apart
No I'm never gonna feel alone
Doesn't matter how far
Keep you close to my heart
No I'm never gonna feel alone

It feels like home
It feels like home
It feels like home

It feels like home
It feels like home
It feels like home
