

Let It Rip

Afrojack

Big lights on Papparazz
I pull up in this mafuckka with the entourage
Wrist on Hagen-Dazs
If you ain't with us, then you end up on the choppin' block
She a go Shot-for-shot
I know that ass gon' drop like a sake bomb
Light bright chakura, and I be hangin' on the wall like a Basquiat

You got issues, I got mine
I black out to feel alive
Back up off me, bitch I'm fried
Bust some shots off, let em FLY
G-Star flex up on my fits
I can't help the way I drip
I ain't chose this way to live
It chose me and now I'm lit

Big bank, takin' lil bank roll
Say she let me hit it on tape tho
And I got strippers on payroll
Venmo, Paypal, Peso
Stackin' them bricks
Out in the field I'm the captain and shit
And its LIT
Whole clique here, I might let it rip!

Just check this

Ultralights
I need it ultra bright
You bring me hope when I
I lose control tonight
Ultralights
I need it ultra bright
Mix up the potion right
Baby you're ultra bright, I know you are
