Sun is back No lanes in the way I go

Flames blow away And memories Out the smoke

And now It's time For miles And miles

And I'll be going until I just run Out the road

If you're looking for me
I'll be in the land of the free
Nobody there's guilty

By the time you know
That you look go
How we know, know, know, know
In Mexico

Sun is back No lanes in the way I go

Flames blow away And memories Out the smoke

And now
It's time
For miles
And miles

And I'll be going until I just run Out the road

If you're looking for me
I'll be in the land of the free
Nobody there's guilty

By the time you know
That you look go
How we know, know, know, know
In Mexico
