

# Never Forget You

Afrojack

It's only second nature  
For me to put you first  
And I will call you later  
If I can find the words  
I know that I should hate you  
'Cause you're easier to blame  
But I won't look back  
On a love like that

No I can't pretend  
I don't know your body like the back of my hand  
Nobody can hold me in the way that you can  
Even when you go I'll never forget you  
Baby, for tonight  
Can we just forget and push our problems aside  
I still hold your name to every tear I cry  
But I hope that you know I'll  
Never regret you, never regret you

I hope that you know I'll  
Never regret you, never regret you

Know we got our issues  
Darling everybody does  
I'll say that I don't miss you  
If a liar's what you want  
I kept every photo  
And I hold them like a grudge  
'Cause I still look back  
On a love like that

No I can't pretend  
I don't know your body like the back of my hand  
Nobody can hold me in the way that you can  
Even when you go I'll never forget you  
Baby, for tonight  
Can we just forget and push our problems aside  
I still hold your name to every tear I cry  
But I hope that you know I'll  
Never regret you, never regret you

You, oh  
Never regret you, never regret you  
I hope that you know I'll  
Never regret you, never regret you

Baby, for tonight  
Can we just forget and push our problems aside  
I still hold your name to every tear I cry  
But I hope that you know I'll  
Never regret you, never regret you
