

Sober

Afrojack

And even when there's no more alcohol
I still think about you, baby
'Cause I never thought we'd be in love
Even when we're sober
Now it's almost morning
I don't want this to be over
'Cause I never thought we'd be in love
Even when we're sober

My mind made up
Fallin' is courageous
Pretty please, pray for us
Once you change up, I see you're a traitor
Now I think you're dangerous
Nobody said you had to live a boring life
No typical shit, we switching up the vibes
Nobody said you had to live a boring life
I'm feeling you, I wish I could extend my night

And even when there's no more alcohol
I still think about you, baby
'Cause I never thought we'd be in love
Even when we're sober
Now it's almost morning
I don't want this to be over
'Cause I never thought we'd be in love
Even when we're sober

(Ay, Ay) Last call for alcohol
Screaming "fuck the law"
Last time I got a taste, it wasn't enough at all
Body language say it all
Stop tryna play it off
She got a bad attitude, I'm bout to break her off
She too eager to hop in to my two seater
When I asked her 'bout her man, she caught amnesia
Damn, I can't believe I'm sober in Ibiza
Damn, I'm drippin' and she like the way I clean up
(Hey) She like I need, I need, I need, I need ya
(Ay) She like I need, I need, I need, I need ya

And even when there's no more alcohol
I still think about you, baby
'Cause I never thought we'd be in love
Even when we're sober
Now it's almost morning
I don't want this to be over
'Cause I never thought we'd be in love
Even when we're sober

Go ahead now, do what you do
Well I guess I got nothing to lose
I just want to stay here with you

And even when there's no more alcohol
I still think about you, baby
'Cause I never thought we'd be in love

Even when we're sober
Now it's almost morning
I don't want this to be over
'Cause I never thought we'd be in love
Even when we're sober
