

Speechless

Afrojack

You get me
Speechless, speechless
Speechless, when I'm around you
Speechless, speechless
Speechless, when I'm around you
But when I try to tell you what's up
You smile at me and...

You make me want to scream and shout
But no words come out
Got secrets, I can't say out loud
I'll spell them out
But when I try to tell you what's up
You smile at me and turn away
There's just no way I'm giving it up (up, up, up...)

You get me
Speechless, speechless
Speechless, when I'm around you
But when I try to tell you what's up
You smile at me and...

But when I try to tell you what's up
You smile at me and turn away
There's just no way I'm giving it up

You get me
Speechless, speechless
Speechless, when I'm around you
But when I try to tell you what's up
You smile at me and...

You get me
Speechless, speechless
Speechless, when I'm around you
But when I try to tell you what's up
You smile at me and...
