

# Switch

Afrojack

Heaven on your body  
I give what I love today  
So hold on to me  
Don't let go of me  
I ain't just somebody  
Got three ways to make you stay  
Come discover me  
Just keep touching me

We can do better than lately  
I'm gonna kneel too if you're praying  
No I ain't selfish, I'm just saying  
Baby I'll go froze, I'll go froze  
Til we...

Switch  
Just like this  
Taking our, taking our turns  
Til we switch  
Just like this  
Taking our, taking our turns  
Til we switch

My body is a temple  
Only you open the door  
Coming on to me  
Baby worship me  
You give me a feeling  
Fill the hole that's in my soul  
I see you and me  
You see me for me

We can do better than lately  
I'm gonna kneel too if you're praying  
No I ain't selfish, I'm just saying  
Baby I'll go froze, I'll go froze  
Til we...

Switch  
Just like this  
Taking our, taking our turns  
Til we switch  
Back and, back and forth  
Back and, back and forth  
Just like this  
Give me, give me more  
Give me, give me more  
Til we, til we, til we, til we switch...

Underneath the flashing light  
Flip it til we get it right  
Do it any way you like  
Til we...

Switch  
Just like this  
Taking our, taking our turns

Til we switch  
Back and, back and forth  
Back and, back and forth  
Just like this  
Give me, give me more  
Give me, give me more  
Til we switch  
Back and, back and forth  
Back and, back and forth  
Just like this  
Give me, give me more  
Give me, give me more  
Til we, til we, til we, til we, til we switch...
