

## Worlds On Fire

Afrojack

We're too young for this road that we built to be crumblin'  
If we run from this feelin', it's all been for nothin', been fo  
r nothin'

Not gonna lie to you, lie to you, lie to you  
There's gonna be hard times under these dark skies  
Not gonna lie to you, lie to you, lie to you  
But if you're by my side, it's gonna be alright

I won't let you go even if the whole world's on fire, world's o  
n fire  
Promise I'ma stay with you through the flames, hold you tighter  
Let 'em burn 'cause we'll burn brighter  
Even if the world's on fire  
Even if the world's on fire

Take my hand when they tell us that we should know better  
They don't understand, when the smoke clears, we'll still be to  
gether, together

Not gonna lie to you, lie to you, lie to you  
There's gonna be hard times under these dark skies  
Not gonna lie to you, lie to you, lie to you  
But if you're by my side, it's gonna be alright

I won't let you go even if the whole world's on fire, world's o  
n fire  
Promise I'ma stay with you through the flames, hold you tighter  
Let 'em burn 'cause we'll burn brighter  
Even if the world's on fire  
Even if the world's on fire

Even if the world's on fire
